

Fragments

Mist

60 or 110 cm

FRAGMENTS and MIST two designs by Marc van der Voorn for AAN-UIT
www.marcvandervoorn.nl | www.aanuit.nl

The flex is 120 cm long and easy to adjust to the right length.
There is a round and square stainless steel cover. For a set we offer a stainless steel beam with two flexes with 60 or 110 cm interspace.

MIST @ Toonkamer - Utrecht

The FRAGMENT and MIST hanging lamps have an intense and rich print on the inside of the shade. The lamp transforms when the light is turned on. The print inside the shades is invisible when the light is off. When turned on, the shade lights up and the rich colors emerge.

FRAGMENTS and MIST are the perfect lamps to make a good atmosphere at home or at the office.

Two models and four prints

Both models are available in a narrow and straight version.

FRAGMENTS is available with a grey print.

MIST is available in three color ranges:

From pink to blue, yellow to blue and grey to white.

One or a set of two

A single shade comes with a stainless steel ceiling cover.

For a set of two we have a ceiling beam with two flexes. The flex is 120 cm long and easy to adjust to the right length.

The interspace between the two flexes is 60 or 110 cm.

FRAGMENTS and MIST are both designs by Marc Th. van der Voorn for AAN-UIT
